LIVE STOCK AND DAIRY.

Plans for a Good Exhibition of These at Charleston Exposit on.

The South Carolina Inter-State and West Indian Exposition company has been organized with resources of \$1,-

Its purpose is to show to the world the marvelous development of the South in the last quarter of the nineteenth century. To accomplish this the exposition has been made an Inter-State affair, and there is no good reason why the enormous resources of the wrs heavy, making the ground too United States should not have a place wet to cuitivate, but after the 10th dry

Many States and ciries have already responded favorably and will be rep- and from six to twe ve inches over the resented by buildings on the avenue of central and eastern counties. The wet with a warm solution of States and cities; and the Federal gov- snow was generally considered beneernment will also be represented by a building and exhibits from all its departments.

LIVE STOCK DEPARTMENT

The management, considering that the exposition would not be complete without a credicable exhibit of livestock are now arranging their plans for this degartment, and propose to make it on broader lines than ever before attempted in the south.

The exposition grounds covering 175 acres are located one and one-hart miles from the bear of the city and embrace the old Washington race course, which in arte-bellum days was a favorite for all racing stock. The chimate of Charleston is peculiarly adapted for a livestock exhibit during the months of the exposition, and suitable buildings with all modern conveniences will be erected for the accommodation of all classes of live

It is desired that the following live stock shall be fully represented:
Cattle.-Beef breeds, dairy breeds

Sheep .- All classes, approved by stock breeding associations. Swine -All classes approved by

stock breeding a sociations Horses, Speed Department .- Trot-

ting, pacing, running. Harnes .-- Coach, hackneys, morgan, standard roadsters, thoroughbreds,

saddle horses and ponies. Poultry .- Or all kinds, approved by poultry associations.

Premiums - It is the in ention of the management to offer an attractive premium list in all recognized clas-er, and they invite correspon tence with all live stock associations on this line, for the purpose of securing their cooperation which may result in sug menuing the premium list.

Management of the Department .-The exposition management are arranging to secure the very best managers for each of the divisions of the department, and their appointments will soon be annound.

DAIRY DEPARTMENS.

The great interest lately developed throughout the South in all matter pertaining to the dairy and its products, has induced the managem at to make a speci-tauron op a modern dairy building will bested. Correspondence is solicited with all interested in dairy methods. Address Jno. H. Averill, Director General, Charleston, S. C.

THE MONTH OF FEBRUARY WIT- PROTECTION OF THE CHILIT NESSED RAPID FARM WORK

Absence of Stimulating Warmth and Uniformly Cold Nights Have Checked Too Rapid Development

Mr J. W. Baner, section director of the weather bureau of South Carolina, yesterday issued the following special crop bulletin:

The month of February, especially the latter portion, averaged much cooler than usual, but the month was free from extreme co'd weather. Early in the month the precipitation weather prevailed to the 23d, on which the first part to receive attno day snow tell to the depth of from two to five inches over the western counties. ficial except to young tobacco plantin the eastern portions, and to truck in the southeastern portions, although in both cases the damage was slight.

ther advanced as usual at this season, arated and some of the soltio with, however, widely scattered exceptions where the soil has been too considerable progress, much spring the eyes one sho cansiderable progress, much spring the solution a piece of constant to plant or already plants of already which has constant to the solution a piece of constant to plant or already plants. fora planting will begin early in March, in the eastern counties.

Tobacco is coming up in beds, and, x ept as already noted, the plants are vigorous and healthy.

Wheat suff-red little or no injury from winter killing and is promising Fall oats have good stands, unimpaired by the weather, except in sections of Marion, Newberry and Orangeburg counties, where slight damage occurred by excessive rains.

The absence of continued simulating slight injury is reported.

Along the southern coast truck was in an advanced stage of growth which was checked by the recent cold weather, but the extent of the injury done not vet scourately determinable, alhough known to be quite severe.

The reports from a number of localities indieste a scartity of farm labor ers. They also indicate a general activity in erecting farm buildings, con structing fences, digging ditches and making other farm improvements.

Country roads were generally in good condition during the mouth, en ab ing tarmers to naul large quantities of commercial fertilizers.

TOLBERT AS FREIGHT

The State.

Tolbert leave the town, bad no desire to kill him or even inflict bodily harm. They hit apon a novel plan. They de-cided to capture him and tie him in a crare like a calf and ship him to some of his relatives at Anderson. The raisroad people, it is said, had agreed to receive the freight and duly transmit it and the crate was gotten in readiness. A party of eight or ten m-n then bert was found at work repairing one of his houses, and was told that h must either leave town for hwish or he would be shipped off Tolbert broke and ran and the crowd gave chise. There was no fi ing going on - indeed, the whole crowd was convoled with laughter. You g Mr. H L. Marin aw To bert running up the street with the pur-uers at his heels he started o head off the wanted man Polbert then drew his pistol and fired wice at Martin, and those of the pur--uers who had pistols began firing at Folbert. Martin was wounded twice, as has been stated, but neither tim--erious v. To b-rt was would d twice, the ball perforating the lung. He was

Tolbert has declared that as soon as he i- ab e to be out he will have warrants issued for four citizens of McCormick who were in the party that assaulted him.

The people of McCormick are still determined that To bert shall not again back they will try to induce him to leave and if he gets hurt he will cause it himself. A. M. C.

teachers in every large town, and some of them would undoubtedly be glad to give their Sunday associates the benefit of their experience in a series of lectures informal talks. In the knowledge of the Bible, in ethics and doctrines, many Sunday school teachers are well-versed and competent guides; but as to how they can best make those matters vital to the young people of the land, may of them would welcome the advice of secular experts .- The Youth's Companison.

Mark Twain's Great Achievement.

After an absence of five years Mark Twain has returned to America, and has been suffering severely at the hands of his proud thus carefully washed on this and hospitable countrymen. He saves himself by occasionally forgetting an engagement, but henceforth even that device will be futile, inasmuch as men are told off to keep him to his appointments. The reason for this great enthusiasm is not far to seek. When Mr. Clemens left the United States, five years ago, it was with the avowed intention of paying the debts which he voluntarily assumed of the defunct publishing house of Charles L. Webster from a window, and the carride & Co., in which he was a partner. should have a shade raised of The amount of these has been stated as in the neighborhood of \$200,000. At the age of 60 years Mark Twain set out to make warmth and the uniformly cool nights flammation of the edges of the enough money by a lecturing kept fruit buds from swelling, so that they suffered apparently no injury trom the treeze on the 24th and other dates on which the temperature fell below the freezing point, except in portions of Edwinded country when portions of Edg-field county, where depend upon some defect in the colonies around the Eastern consight which causes eye-strain, It tinents to England. Before leavit may be only a local trouble ing Vancouver he made a state-If it is only a local trouble, a few applications of boric acid oin ment in which he said: "The law recognizes no mortgage on a man's brain, and a merchant who has given up all he has may take Conjunctivitis, or inflammatio advantage of the laws of insolof the membrane covering the globe of the eye, may be due to a cold, to the action of bright sunt light or reflection from water or than the law. It cannot comprofrom sport on the control of the law and start free again for himself. But I am not a business man, and honor is a harder master than the law. It cannot comprofrom sport on the law and the law. from snow, or to eye-strain from mise for less than 100 cents on some visual imperfection. Usually the dollar, and its debts never the boric acid solution will give outlaw." Mr. Clemens paid every his county registration certificate and his county registration certificate and his county registration certificate and leaves relief here, even when the troublement of his indebtedness, hence cannot be permanently cured until the enthusiasm of his compatriots. ·N. Y. School Journal.
